

# InfraRader AI

Intelligent Infrastructure Project Intelligence

## Executive Summary

Intelligent Infrastructure Project Intelligence Platform

Transforming \$9.18T Infrastructure Pipeline Through AI-Powered Verification

**Confidential & Proprietary**

Date: October 21, 2025

## Executive Summary

---

### The Problem

The \$9.18 trillion Middle East and Africa (MEA) infrastructure pipeline is plagued by information asymmetry, with 85% of projects experiencing delays and cost overruns. Current intelligence platforms rely on manual curation and lack real-time verification capabilities.

### The Solution

InfraRader AI delivers verified, real-time project intelligence through an AI-powered platform that combines Large Language Models (LLMs) and Computer Vision (CV) to provide objective, multi-source verification of infrastructure projects.

### Market Opportunity

- **Total Addressable Market:** \$9.18 trillion MEA infrastructure pipeline
- **Target Market:** MENA datacenter vertical (high-value, early adopters)
- **Market Growth:** Saudi Arabia projected highest CAGR 2025-2030
- **Customer Segments:** CFOs, VPs Strategy, Project Managers, Investment Firms

### Competitive Advantage

- **AI-Powered Analysis:** Advanced LLM and CV capabilities
- **Real-time Intelligence:** Continuous project monitoring and updates
- **Multi-source Validation:** Cross-validation and confidence scoring
- **Satellite Monitoring:** Multi-layered geospatial triage system

### Business Model

Three-tier subscription model targeting different customer segments:

- **Tier 1:** Basic Intelligence (\$5K-\$15K annually)
- **Tier 2:** Professional Intelligence (\$25K-\$75K annually)
- **Tier 3:** Enterprise Agent Access (\$100K-\$500K annually)

### Financial Projections

- **Year 3 ARR Target:** \$8M-\$15M
- **Year 5 ARR Target:** \$40M-\$60M
- **Gross Margins:** 75-80%
- **Unit Economics:** CAC <\$50K, CLV >\$500K (Enterprise)

**Traction**

- Pilot discussions with KoBold Minerals and L&T Construction
- Strategic partnerships with DP World and Alpha MBM Investments
- Development bank interest from DFC and AfDB

**Team**

Experienced founders with deep domain expertise in infrastructure, AI/ML, and emerging markets.

**Funding Ask**

Seeking \$[X] million in Series A funding for:

- AI model development and fine-tuning
- Data partnership acquisition
- Pilot program execution
- Team expansion
